

## Minihack – Secure Coding Challenge Instructions

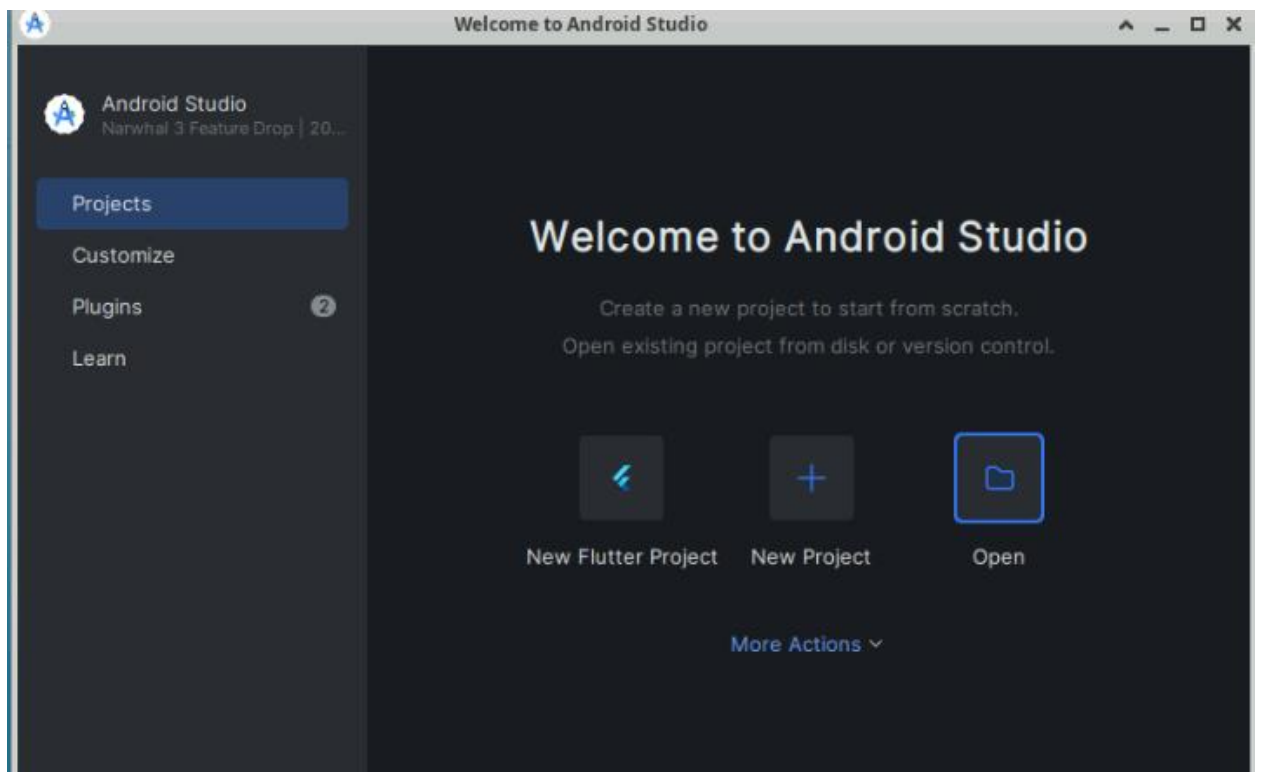

- **Where can I find the problem statement?**
  1. Open the **Desktop** and locate the **problemStatement.html** file.
  2. If not found there, go to the **Project** folder and check inside for the **problemStatment.html** file.

- **How to enable keyboard access?**
  1. Click the **Credentials** button at the top right corner of the screen.
  2. Close the **Credentials** window after clicking it.
- **How to launch the project in an android studio?**
  1. Open **Android Studio** from the Desktop.

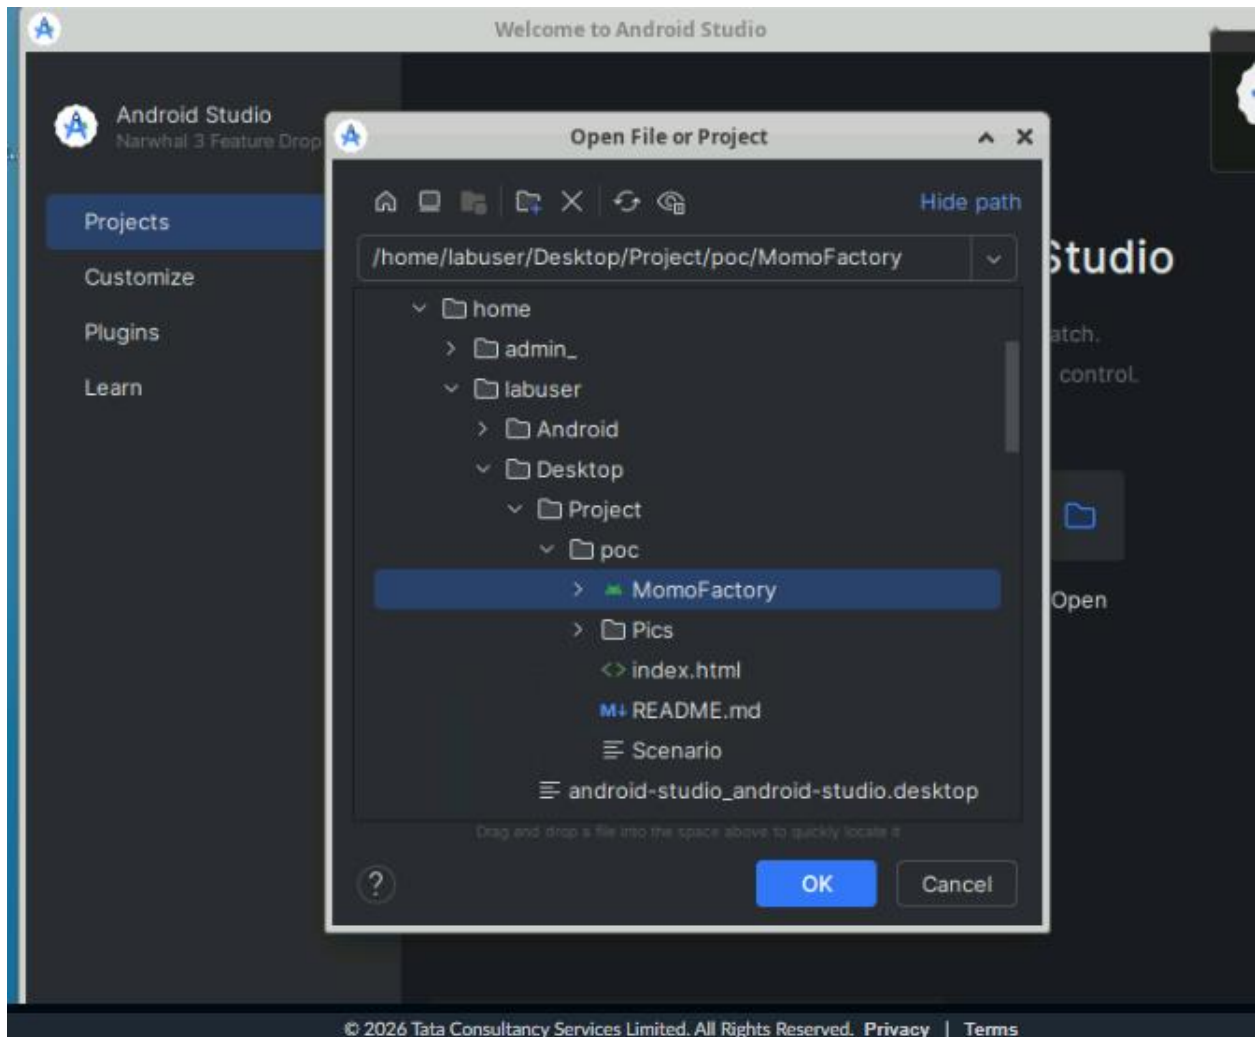

2. On the Android Studio welcome screen, click **Open**.

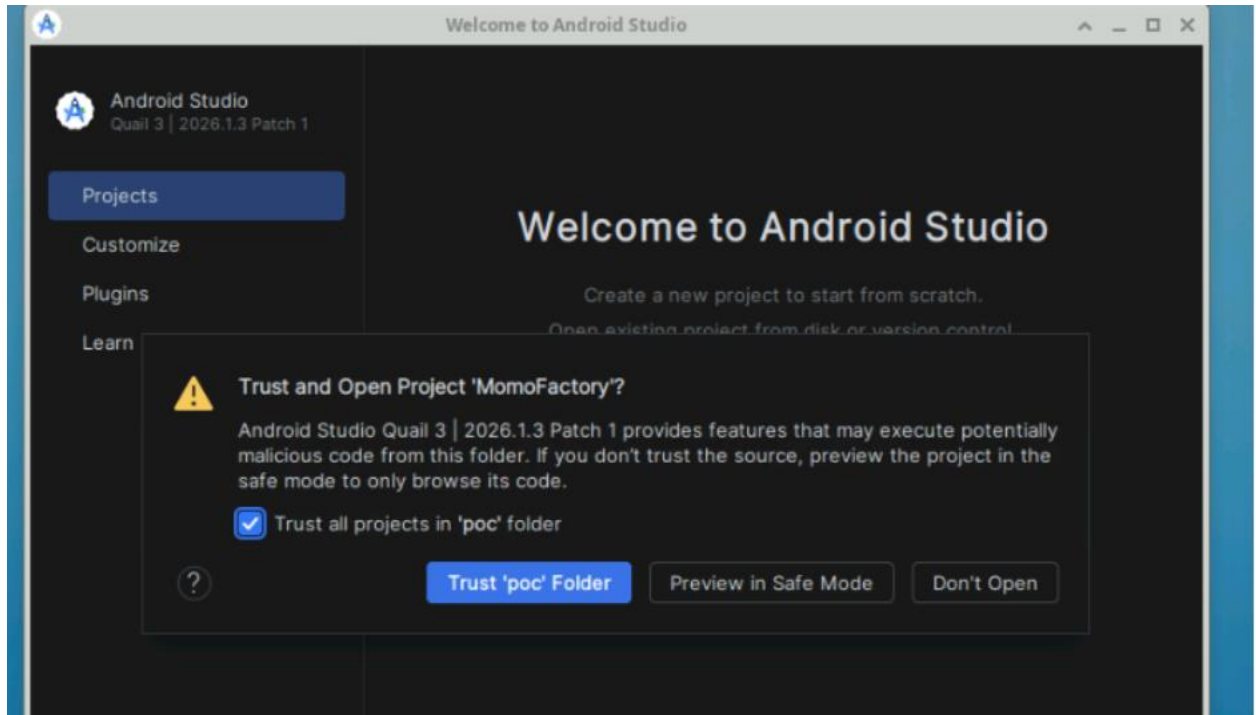

3. Navigate to the following project location:

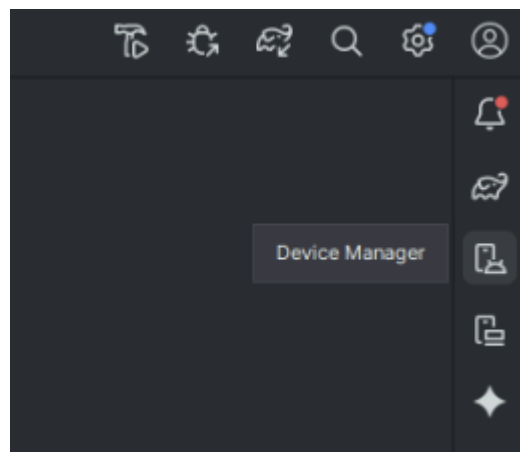

~Desktop/Project/minihack-securecoding-androidj-LPSQLi/

4. Select the **MomoFactory** project folder and click **Open**.

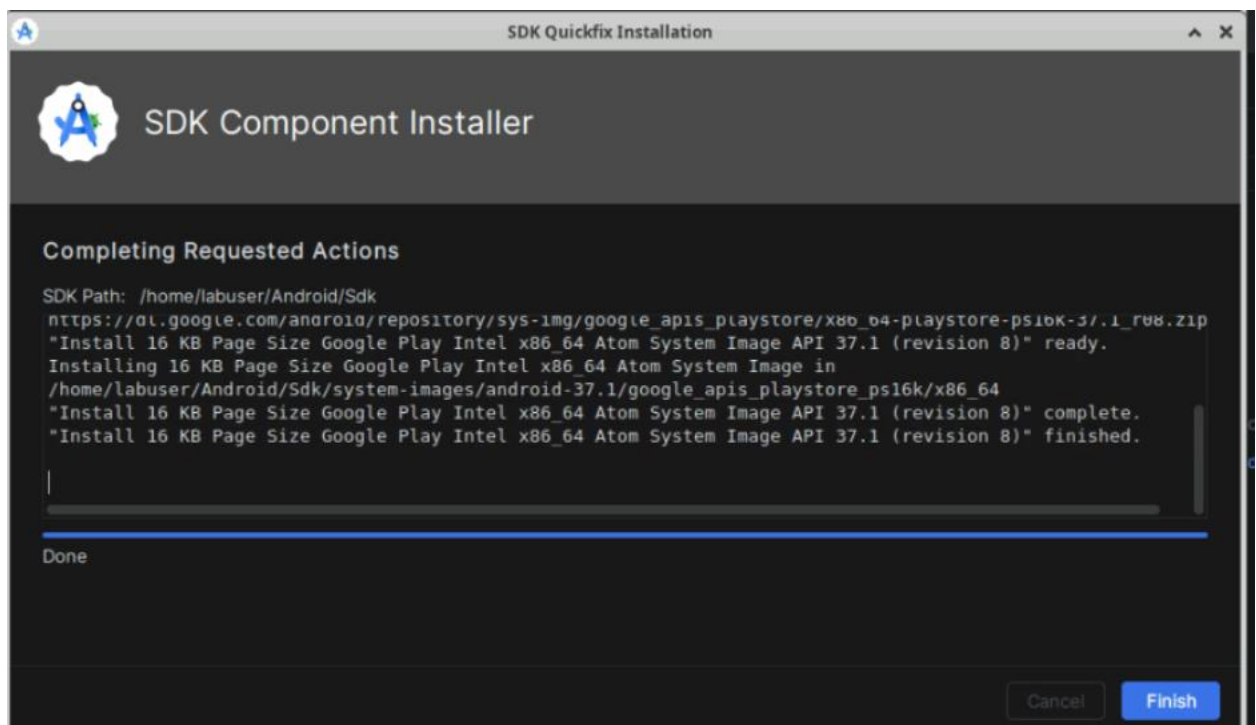

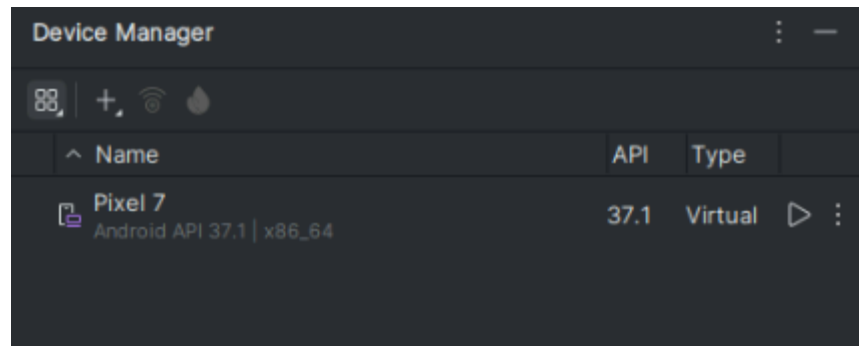

5. Allow approximately **2 – 3 minutes** for the project setup and build process to finish.
  6. The **MomoFactory** project is successfully opened and built in Android Studio, ready for development.
- **How to setup the Virtual Device in an android studio?**
    1. Open your project in Android Studio.
    2. From the toolbar, click **Device Manager**.

3. In the Device Manager window, click the '+' (Add Device) icon and select **Create Virtual Device**.
4. In the **Add Device** screen, choose **Pixel 7** from the device list and click **Next**.
5. On the **System Image** screen, select the **first available system image** and click **finish**.
6. When the **Confirm Download** dialog appears, click **Yes** to start downloading the required SDK components.
7. Wait for the SDK Component Installer to complete the download and installation process.

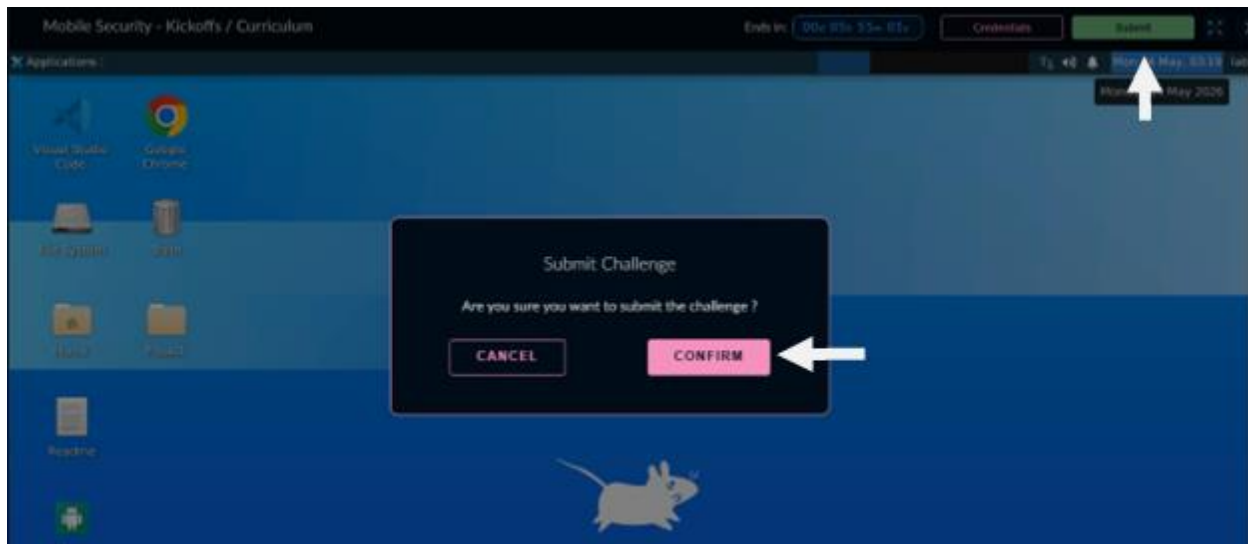

8. Once the installation is complete, click **Finish**.
9. The **Pixel 7 Android Virtual Device (AVD)** is successfully created and ready to be launched for running our application.

## SUBMISSION OF CHALLENGE

Once you are all set, you can Submit your challenge by clicking the **Submit** button on top-right corner of the screen and then click **Confirm**.

**Note:** Once you submit, you will not be able to take the test again. Please note that at the end of the timer, the solution will be auto submitted for scoring.

\*\*\*\*\* BEST OF LUCK \*\*\*\*\*
